

Please do not lessen the Indiana telemarketer phone restrictions. I am enjoying the peace of mind this law has given me. I no longer receive calls that are time consuming and irritaing. Most of the telemarketers that I have had in the past refused to take no as my answer and never removed my name from list when I requested it. Now I don't even have to deal with them. I have gone from 10 to 15 calls a week to none. Please don't change it!
